IMERY'S PHALEMPIN BLENDS AND MIXES

DISTINCTIVE PRE-MIXED BLENDS AND STUNNING MIXES

The 17x27 traditional clay plain tile is produced at Phalempin in the Normandy region in France, with appealing textured sand finish and thickness that you would normally associate with expensive hand made clay tiles.

Stunning results can be achieved by mixing different colours of Phalempin. Choose one of our distinctive pre-mixed blends, or create your own - good practice requires that tiles from at least three different pallets be mixed when roofing so why not formulate your own mix using different colours?

COLOURS

Phalempin is available in a number of attractive colours, which may be used individually or mixed on site to create your own distinctive blend. Millennium and Vintage are supplied pre-mixed.

Amber (007)

Weathered (110)

Rustic Red (006)

Volcano (122)

Val de Seine (104)

Natural Red
(Special Order Only)

Vintage (145)
(pre-mixed blend)

Millennium (132)
(pre-mixed blend)

To overcome any minor shade variation inherent in the firing of natural materials we recommend that you mix the products on site by selecting tiles from a minimum of three pallets. The colours shown here are colour reproductions and are shown as a guide. Product samples are available on request.

THE IMERYS **MILLENNIUM** PRE-MIXED BLEND

CREATING A HERITAGE APPEARANCE FOR NEW BUILD OR REFURBISHMENT

The Millennium blend has been developed with a passion and concern for the environment that surrounds us, with over 200 years of experience and expertise making the Millennium a natural choice.

A UNIQUE, VARIABLE SURFACE FINISH

Thanks to a special manufacturing process, the Phalempin site produces each Millennium tile in a unique fashion with its own texture and relief. The Millennium blend offers a vibrant blend of colours that will mellow and mature with time.

MIX OF DIFFERENT SIZES

Irregularity of sizes which is indispensable for the renovation of historic buildings with three different lengths varying by +/-5mm in order to recreate roofs as they used to be.

NATURAL AND DURABLE

Clay roof tiles are natural and durable which will enhance the aesthetic appearance of a roof for generations, leaving an inherent legacy for us to appreciate and enjoy.

EASY INSTALLATION

A variety of colours and sizes on the same pallet ensures ease of installation.

THE IMERYS **VINTAGE** PRE-MIXED BLEND

OFFERING THE CHARACTER AND CHARM OF RECLAIMED TILES

With a mellow, textured surface combining the beautiful appearance of mature handmade tiles at no extra premium, the old reclaim appeal of the Vintage Blend creates and maintains a lasting beauty.

NATURAL COLOUR TONES

With computer controlled high temperature technology IMERYS roof tiles comply and exceed the requirements of BS EN 1304 and ISO 9001 quality assurance standards.

PRE-MIXED BLEND

Our Vintage Blend is supplied pre-mixed to ensure quick and easy installation (NBS fixing specifications are available on request).

30 YEAR GUARANTEE

Like all IMERYS Phalempin tiles, the Vintage Blend is supported by our comprehensive market leading insurance backed 30 year durability guarantee*.

EXCLUSIVE PHALEMPIN MIXES

WARM, MELLOW AND DISTINCTIVE BLENDS

THE RENOWNED HORSHAM MIX

The eye catching Horsham Mix is created by mixing on site equal quantities of three Phalempin tiles:

Val de Seine • Rustic Red • Amber

Rustic Red is frequently chosen as the colour for the accessories.

THE BERKSHIRE MIX

The Berkshire Mix is a combination of five Phalempin tiles. This blend produces a superb variation of subtle, natural tones.

Val de Seine • Amber • Rustic Red • Volcano • Weathered
